

Do you need small business financing for working capital, inventory, equipment, leasehold improvements, renovations or expansion? Are you thinking of purchasing property for your very own business facility? If the answer to either of these questions is YES, let the U.S. Small Business Administration help you. An SBA representative will be speaking at the loan briefings listed below and will discuss how SBA's loan guaranty programs can assist you in accessing capital. Also learn the three key elements in securing a small business loan - the importance of credit, business planning and preparation. SBA assists eligible start-ups and existing small businesses with financing, as well as with business counseling and training through it's various other programs. All are welcome!
